Naman Porwal

9528121166 | namanporwal615@gmail.com | Linkedin | Github | LeetCode | Codeforces

SUMMARY

Computer Science undergraduate with strong foundations in **Data Structures & Algorithms and Web Development**. Solved **238+ DSA problems on LeetCode (rating: 1415)** and actively compete on **Codeforces (156 problems solved)**. Experienced in building responsive web interfaces using **HTML, CSS, and JavaScript**, with solid problem-solving skills in **C++**. Seeking **software / web development internships** to apply DSA and development skills in real-world projects.

ACHIEVEMENTS

- Solved **215+** Data Structures & Algorithms problems on LeetCode (Rating: **1415**)
- Solved **127** problems on Codeforces with current rating **842**
- Gold Badge in C++ on HackerRank
- Consistently improving competitive programming performance across platforms

TECHNICAL SKILLS

- **Languages**: C++, JavaScript, HTML, CSS
- **Core CS**: Data Structures & Algorithms, OOP
- **Web Development**: Responsive Design, DOM Manipulation
- **Tools & Platforms**: Git, GitHub, VS Code, LeetCode, Codeforces

PROJECTS

Disease Predictor Website May 2025 – Jun 2025 *Web Development Project HTML, CSS, JavaScript, Python, scikit-learn* Built a responsive frontend interface for a disease prediction system

- Integrated user symptom input with a Python + scikit-learn backend
- Displayed prediction results dynamically with validated user inputs

Roamia – Airbnb Clone May 2025 *Full-Stack Web Project Node.js, Express, MongoDB, EJS* Built a full-stack Airbnb-style web application using Node.js, Express, MongoDB, and EJS

- Designed RESTful backend architecture with MongoDB models for listings and users
- Implemented server-side rendering with EJS and structured routing for scalability

EDUCATION

Vellore Institute of Technology, Bhopal 2023 – 2027 *B.Tech in Computer Science CGPA: 7.44 / 10* Relevant Coursework: Data Structures & Algorithms, DBMS, Web Development

CERTIFICATIONS

- Vityarthi AI/ML Fundamentals Certification (2024)
- ElectroCraft Workshop – Circuit Design and Tinkercad (VITRONIX Club)
